

HEALTHY SCHOOLS CAMPAIGN

EVERY CHILD DESERVES TO LEARN + THRIVE

Change for Good Celebrating Healthy Schools Campaign

Healthy Schools Campaign (HSC) is on a mission to create healthier school environments for children, and we have made significant progress in our work at the intersection of health, education, sustainability and equity. Please join us to celebrate this work and hear what's next at Change for Good 2024!

HSC advocates for policies and practices that support health and learning, including nutritious school food, physical activity, comprehensive mental and physical health services, green schoolyards and clean air at school. Founded in Chicago, we work at the national and state levels to support strong health and education policy in schools. We focus on issues that disproportionately affect Black and Latinx students, and students from under-invested communities. We make equity central to the public dialogue about education and health.

This year, we have accomplished so much. From designing new Space to Grow schoolyards and convening a citywide effort to support Green Infrastructure; to seeing more states make major progress in support of comprehensive school health services; to bringing Healthy Green Schools & Colleges, our national certification standard for healthy and sustainable school facilities management, to Chicago Public Schools; to the elevation of parent voices and priorities in all aspects of our work. We are so proud of this incredible track record!

You're invited to be part of this positive change and support Healthy Schools Campaign by sponsoring Change for Good.

Thursday, September 26

5:30 to 7:30pm

190 S. LaSalle, 40th Floor

Chicago, Illinois
